It's okay with me - Courtney may be a bit upset but only because funds are extremely limited at present. Let me know what she says.

Thanks
Angela

Jeff wants Mr. Jesus Rodriguez from the USGS on board as a consultant. Mr Rodriguez conducted a GW study in Cabo Rojo. My understanding is that Jeff believes Mr. Rodriguez will help us expedite the assessment since he knows the aquifer of concern, groundwater flows, PRASA wells, the relation between surface and groundwater, impact of the PRASA wells on the aquifer, etc.

Please let me know if you agree before I talk to Courtney.

Talk to Courtney re: funding. What exactly does he envision USGS doing?

Subject: USGS IAG

Jeff wants an IAG for \$20,000 with the USGS to help with the Cabo Rojo Ground Water Investigation. He says that he can't put together an IAG that it has to be initiated on our end.

how do you want to proceed?
